## Clevertouch – Lynx Whiteboard

To whom it may concern

We have been made aware that some of our competitors are promoting the use of our Lynx Whiteboard software on their products, I would like to make you aware of the following:

- We do not authorise other brands to use Lynx Whiteboard on their interactive displays.
- We cannot guarantee Lynx Whiteboard will be compatible on non-Clevertouch interactive displays, it is optimised for our interactive displays.
- In the event of a support issue, we will only provide support to Clevertouch customers; in the event the issue is related to a competitor interactive display, we will advise the end user they are not authorised to use Lynx Whiteboard.
- Lynx Whiteboard is available on the various app stores; this is to allow teachers who have purchased Clevertouch to install on their school devices, and for students to use on their home devices.
- Lynx Whiteboard may become licensed in the near future to be fully functional with Clevertouch interactive displays only, with a separate licence for mobile devices associated to the school.

If you would like to discuss this further, please do get in contact at [ian.parkin@clevertouch.com](mailto:ian.parkin@clevertouch.com).

Regards

Ian Parkin  
International Sales Manager  
Clevertouch
