BASIC FEATURES:

Cross Platform

Windows, Macbooks, iOS, Android. Connect it all Wirelessly. With wePresent, BYOD meets wireless projection.

64-User Queue

Up to 64 users can connect to the wePresent gateway making it a truly collaborative experience.

1080p Resolution

With both an onboard VGA and HDMI video output, you can let classroom and conference room users wirelessly project in resolutions up to full 1080p.

Customized Logo on Standby Screen

Add a company logo to brand the standby screen, so it's the first thing users see.

WebSlides

Enables audience to follow along at their own pace and with their own device.

SidePad Mobile Control

Turn a mobile phone or tablet into a remote control for any projecting Mac or PC.

Quadrant Display

Allows users to project up-to 4 devices onscreen at the same time, and wirelessly collaborate in real time.

LAN Port

If wePresent is hardwired to your network, users can connect to your network as usual to wirelessly present and still maintain internet.

30fps

wePresent allows video mirroring at up to 30-frames-per-second for smooth video playback

Wireless Access Point

Broadcast an additional wireless SSID signal for your team or your guests to connect to.

Conference Control

Allows a designated moderator to select and control which device in queue will be displayed on screen.

USB Guest Access

Includes a fast Plug-and-Show USB token, enabling guests to give a wireless presentation without installing software on their computer.

INTERACTIVE FEATURES:

Touchscreen Control

Control and operate the presentation using the USB of the touchscreen display.

AirPad Controller

Write, draw and annotate, but also control any projecting computer using the special AirPad.

Interactive Whiteboard

With one click, switch the presentation to a white/blackboard environment for quick annotations.

OnScreen Annotation

During a presentation, write, draw and annotate on-screen using the built-in annotation overlay.

ADVANCED FEATURES:

USB Document/Media Player

Plays any document, image, audio and video file directly from your personal USB.

Onboard Video Player

Stream video file to the wePresent unit with full resolution and no latency.

1-to-Many Distribution

Projects one device to up-to 4 different wePresent displays.
