

# JANITORIAL HANDY KLEEN

## Safety Data Sheet (SDS)

Issue Date: 2023/09/15

Version: 1

Report Number: 3978\_5

### Section 1 Product and Company Identification

Product Name	Janitorial Handy Kleen
Use	Household and office cleaning - Ammonia based detergent that is formulated to clean even the toughest dirt. Ideal for bathrooms and kitchens
Restrictions on use	Use as per instructions only
Supplier / Manufacturer	Parrot Products (Pty) Ltd
Address	22 Cleveland Road Cleveland Johannesburg South Africa 2022
Telephone number	(+27) 10 404 9000
E-mail	sales@parrotproducts.biz
SDS prepared by	Scibalab (Pty) Ltd
Telephone number	+27 (0)21 418 0325
Email address	enquiries@sci-ba.co.za
SDS preparation date	15/09/2023

#### EMERGENCY TELEPHONE NUMBER

(+27) 10 404 9000

Material Overview	The product <b>Janitorial Handy Kleen</b> consists of ammonia smelling, white, slightly viscous liquid that is <b>stable</b> at room temperature. The product can be <b>safely handled</b> with appropriate PPE.
-------------------	--

### Section 2 Hazards Identified

Human health	Acute toxicity, Category 4, Inhalation Acute toxicity, Category 4, Oral Skin corrosion/irritation, Category 1B Serious eye damage / irritation, Category 1 Acute aquatic toxicity, Category 1
Eyes	Damage to eye and possible blindness.
Skin	Skin corrosion and irritant
Inhalation	Corrosion and irritant.
Effect of additional compounds formed	None
Hazard Statements	H290 - May be corrosive to metals H302 - Harmful if swallowed H314 - Causes severe skin burns and eye damage H318 - Causes serious eye damage H332 - Harmful if inhaled H335 - May cause respiratory irritation H412 - Harmful to aquatic life with long-lasting effects
Precautionary Statements	P102 - Keep out of reach of children P262 - Do not get into eyes, on skin, or on clothing P281 - Use personal protective equipment as required P260 - Do not breathe dust/fumes/gas/mist/vapours/spray. P280 - Wear protective gloves / protective clothing / eye protection / face protection

## Safety Data Sheet (SDS)

Issue Date: 2023/09/15

Version: 1

Report Number: 3978\_5

Environmental effects	P304+P338 - IF IN EYES: Remove contact lenses if present and easy to do. Continue rinsing
Specific hazard	P304+340: IF INHALED: Remove person to fresh air and keep comfortable for Breathing
Personal Protection	P303+361+353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
Equipment	P301+330+331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting. P264: Wash hands thoroughly after handling
	Hazardous to the environment with long lasting effects.
	-
	Eye and face protection, skin protection and respiratory protection needed. See Section 8 for more information.

### Section 3 Composition / Information on Ingredients

Nature of Material Mixture

Components	Formula	CAS number	Conc. (% g/g)
------------	---------	------------	---------------

Percentages of ingredients are being withheld as trade secret information. This information will be disclosed as necessary to authorized individuals

### Section 4 First-aid Measures

Following inhalation	Remove person from exposure, proceed to fresh air and call physician if symptoms develop or persist. If breathing has stopped, then begin rescue breathing (using universal precautions) and CPR if heart has stopped and transfer promptly to a medical facility. There may be shortness of breath with a burning sensation in the throat. Exposure may cause coughing or wheezing.
Following skin contact	Remove contaminated clothing and wash skin with large amounts of fresh, running water. If irritation persists, seek medical attention. Blistering may occur. Progressive ulceration will occur if treatment is not immediate
Following eye contact	Remove contact lenses, if present and easy to do. Rinse with plenty of cold running water for 15 minutes, whilst keeping eyes open. Do not rub eyes. If irritation persists, seek medical attention. Corneal burns may occur. May cause permanent damage.
Following ingestion	Do not induce vomiting. Material is inert however it is highly adsorbent and could cause dehydration if large amounts are consumed, seek medical advice. Do not attempt to neutralise.

### Section 5 Fire Fighting Measures

General Fire Hazards	Development of hazardous combustion gases or vapours possible in the event of a fire.
Suitable Extinguishing media	Water spray, dry powder, foam or carbon dioxide
Unsuitable extinguishing media	None
Hazardous Combustion products	Toxic fumes may form during combustion.

# JANITORIAL HANDY KLEEN

## Safety Data Sheet (SDS)

Issue Date: 2023/09/15

Version: 1

Report Number: 3978\_5

**Precautions for fire-fighters** Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

## Section 6 Accidental Release Measures

**Personal precautions** Wear protective clothing as described in Section 8 of this safety data sheet. Control source of spillage if possible and safe to do so. Restrict access to the area until completion of clean-up. Avoid inhalation and contact with eyes and skin. Wash and change clothing following clean-up of a spill to prevent personal contamination.

**Emergency procedure** In case of spillage or fire, (1) evacuate personnel and secure/control entrance to area. (2) Eliminate all ignition sources. (3) Inform appropriate safety personnel.

**Environmental precautions** Prevent run-off into drains and other water systems.

**Clean-up Procedure**

- Prohibited** Do not discard into the environment or down drains
- Recovery** Don't recover, discard collected product
- Cleaning/Decontamination** Use absorbent material (e.g. Chemizorb®)
- Disposal** Wear appropriate personal protective equipment (PPE). Dispose of all contaminated material at an authorized site.

## Section 7 Handling and Storage

**Handling Procedures**

- Safe handling measures** Observe label precautions. Avoid excessive heat, contact with acids, oxidisers and combustible materials. Avoid contact with skin and eyes. Wash hands after handling.
- Hygiene measures** Respect the general rules for occupational hygiene including removing contaminated clothing after exiting handling areas, washing after shift, do not eat, smoke or drink in areas where chemicals are being handled, processed or stored. Wash hands carefully before eating, smoking, drinking, applying cosmetics or using the toilet.

**Storage Procedures**

- Recommended** Store in tightly closed original container (non-metal) in a dry, cool, and well-ventilated place away from acids, oxidisers and combustible materials.

## Section 8 Exposure Controls and Personal Protection

**Engineering Controls** Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the workday.

### OSHA exposure limit values (OEL)\*

Component	Value	Control parameters	Form
Material	No information available		

PEL = Permissible Exposure Limits; TLV = Threshold Limit Value; EL = Excursion Limit; TWA = Time Weighted Average (8 hr); STEL = Short Term Exposure Limit (15 min.); WEEL = Workplace Environmental Exposure Level

## Safety Data Sheet (SDS)

Issue Date: 2023/09/15

Version: 1

Report Number: 3978\_5

### Personal Protective Equipment

#### Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with recommended filter type of Filter B (DIN 3181) for inorganic gases and vapours.

#### Eye protection

Use equipment for eye protection tested and approved under appropriate government standards such as EN 166 (EU).

#### Skin and body protection

Handle with gloves. Gloves must be inspected prior to use. Proper glove removal technique (without touching glove's outer surface) to avoid skin contact with product. Dispose of contaminated gloves after use in accordance with applicable laws. Wash and dry hands.

Full contact: Nitrile rubber gloves, 0.11 m thick with breakthrough >480 min  
Splash contact: Nitrile rubber gloves, 0.11 mm thick with breakthrough >480 min.

The protective gloves to be used must comply with the specifications of EC Directive 89/686/EEC and the related standard EN374.

#### General

Sink/Eyewash fountain and safety shower is recommended. Do not smoke in work area.

#### Comments:

OEL and ACGIH limits are internationally accepted.

## Section 9 Physical and chemical properties

Physical State	Liquid
Colour	White
Odour	Slight Ammonia scent
pH	8.96
Melting point	<0°C
Boiling point	>100°C
Flash point	N/A
Auto-ignition Temperature	N/A
Flammability	Not flammable
Decomposition Temperature	N/A
Pyrophoricity	Not pyrophoric
Oxidising properties	No information available.
Vapour pressure	No information available.
Vapour density	No information available.
Bulk relative density	1.26 g/cm <sup>3</sup> at 25°C
Solubility	Not soluble
Dynamic viscosity	180 Pa.s
Radioactivity	No information available.

## Section 10 Stability and Reactivity

Reactivity	No information available.
Chemically Stable	Stable under normal temperature conditions and storage conditions.
Incompatibility with other substances	Reactions possible with strong alkalis, oxidising agents, strong reducing agents, amines, hydrogen fluoride acids
Anticipated hazardous decomposition products	Toxic fumes may form during combustion.

## Safety Data Sheet (SDS)

Issue Date: 2023/09/15

Version: 1

Report Number: 3978\_5

### Section 11 Toxicological Information

#### Health effects associated with ingredients

Trace elemental content

This metal content in this organic material is considered non-hazardous.

#### Component analysis - LD50

No information available.

#### Carcinogenicity

No information available.

### Section 12 Ecological Information

#### Aquatic toxicity

No information available.

#### Persistence and biodegradability

No information available.

#### Mobility in soil

No information available.

#### General Information

No information available.

#### Possible environmental impact

No information available.

#### Bio-accumulative potential

No information available.

#### Ecological Limit Values

No information available.

### Section 13 Disposal Consideration

#### Waste treatment methods

Waste produced can be recycled by an authorised facility.

#### Waste disposal methods

Non-recycled waste must be disposed of at a registered landfill site. Basic assessment must be conducted to identify waste type. Records of all waste disposal must be retained and a disposal certificate must be issued by the disposal facility.

#### Additional

Do not dump into any sewers or body of water. Dispose of according to local and national regulations.

### Section 14 Transport Information

	ADR/RID	IMDG	IATA
UN Number		UN 2672	
Shipping Name		AMMONIA SOLUTION	
Transport Hazard Class(es)		8	
Transport signage		None	
Packaging Group		III	
Environmental Hazards		Marine Pollutant	
Special precautions		The vehicle transporting the material must provide all required information. It is advisable to check validity of transport regulations with appropriate authority. Drivers should have knowledge of how to handle this material using the correct PPE (as discussed in this SDS) in the event of spillages or interaction with material. There are no other special requirements.	

### Section 15 Regulatory Information

# JANITORIAL HANDY KLEEN

## Safety Data Sheet (SDS)

Issue Date: 2023/09/15

Version: 1

Report Number: 3978\_5

### Relevant Regulations

Waste Classification and Management Regulations.

All applicable local regulations for classifying, labelling and transport must be adhered to when handling this product.

## Section 16 Other Information

### Update

Check the information at the top of this page for relevant update information and adjust work accordingly

### Note

Material is constant as a product of organic material and the composition is monitored each month via a quality control/assurance program.

### Testing performed by

No chemical testing was performed. Physical testing was performed by Sci-Ba Laboratory

### References
